PROJECTS

React Inbox 🔗   *Oct 2018*

React.js, ES6, Bootstrap, HTML5, CSS3
A Gmail clone built with React. Fetches messages from an API, renders them, select to mark as read/unread, select all and POST a new message.

So You Think You Can Paint 🔗   *Jul 2018*

ES6, HTML5, CSS3
A web based painting application that lets the user create pixel artwork. The app is structured with HTML5 and CSS3 then dynamically generated and given functionality with JS.

ACHEIVEMENTS

Hack the Dot, First Place 🔗   *Oct 2018*

Bootstrap, jQuery, JavaScript, HTML5
Won a three hour web development hackathon. I contributed individual components to our application, as well as compiling the final build and presenting on behalf of all group members.
